Energetic computer science professional with proven skills in Data science and Python. Seeking to work hard and smart. I want to acquire more skills and knowledge so that I'm in a position to solve real-world problems. I am looking forward to opportunities where I can learn and grow.

SKILLS

- **Programming Language**
Python
- **Framework and Tool**
Django
- **Databases**
PostgreSQL
- Data Science, Machine Learning,

WORK EXPERIENCE

DATA SCIENTIST - INTERN

Teachnook (March 2023-May 2023)

DATA SCIENTIST - INTERN

Brainy Beams (June 2022 - July 2022)

EDUCATION

B.E COMPUTER SCIENCE & ENGINEERING

Swaminarayan College Of Engineering & Technology

2019 - 2023

CGPA: 8

PROJECTS

Python | Django

To-Do List Project

- Building & Deploying Web Application With Python
- Django App, Templates, Model, Migrations.
- MVT

Data Science Project | Machine Learning Project

Image Classification Project

- Sports Celebrity Image Classification
- Using OpenCV

Exploratory Data Analysis

US Accidents Exploratory Data Analysis With Python

- Analyze year-on-year trends of accidents.
- Technology: Python, NumPy, Pandas
- Big Data, Data Wrangling, Statistical analysis Data Visualization

ACHIEVEMENTS

- Certified in Django from Udemy
- Completed training in Data Science by Teachnook
